

CHALKBOARD PUMPKINS

Supply List:

Pumpkin, Template, Sponge Brush, Tape, Scissors, Black Marker, Chalkboard Paint, and Colored Chalk

Step 1 Picking the Pumpkin

Choose a pumpkin with the smoothest surface you can find. This will make it much easier to draw on later!

Step 2 Applying the Template

Use scissors to cut out your templates and then tape it onto your pumpkin. Trace around the design with a black marker and then remove the template.

Step 3 Painting

Use a sponge brush (or small paint brush) to paint the design area you created in Step 2. Coat the area three times with chalkboard paint, allowing the paint to dry between coats. Sometimes it's fun to paint the entire pumpkin!

CHALKBOARD PUMPKINS

Step 4 Coloring

When the paint is dry, use colored chalk to gently color designs over the painted surface. Draw faces, words, or scribbles... The choice is up to you!

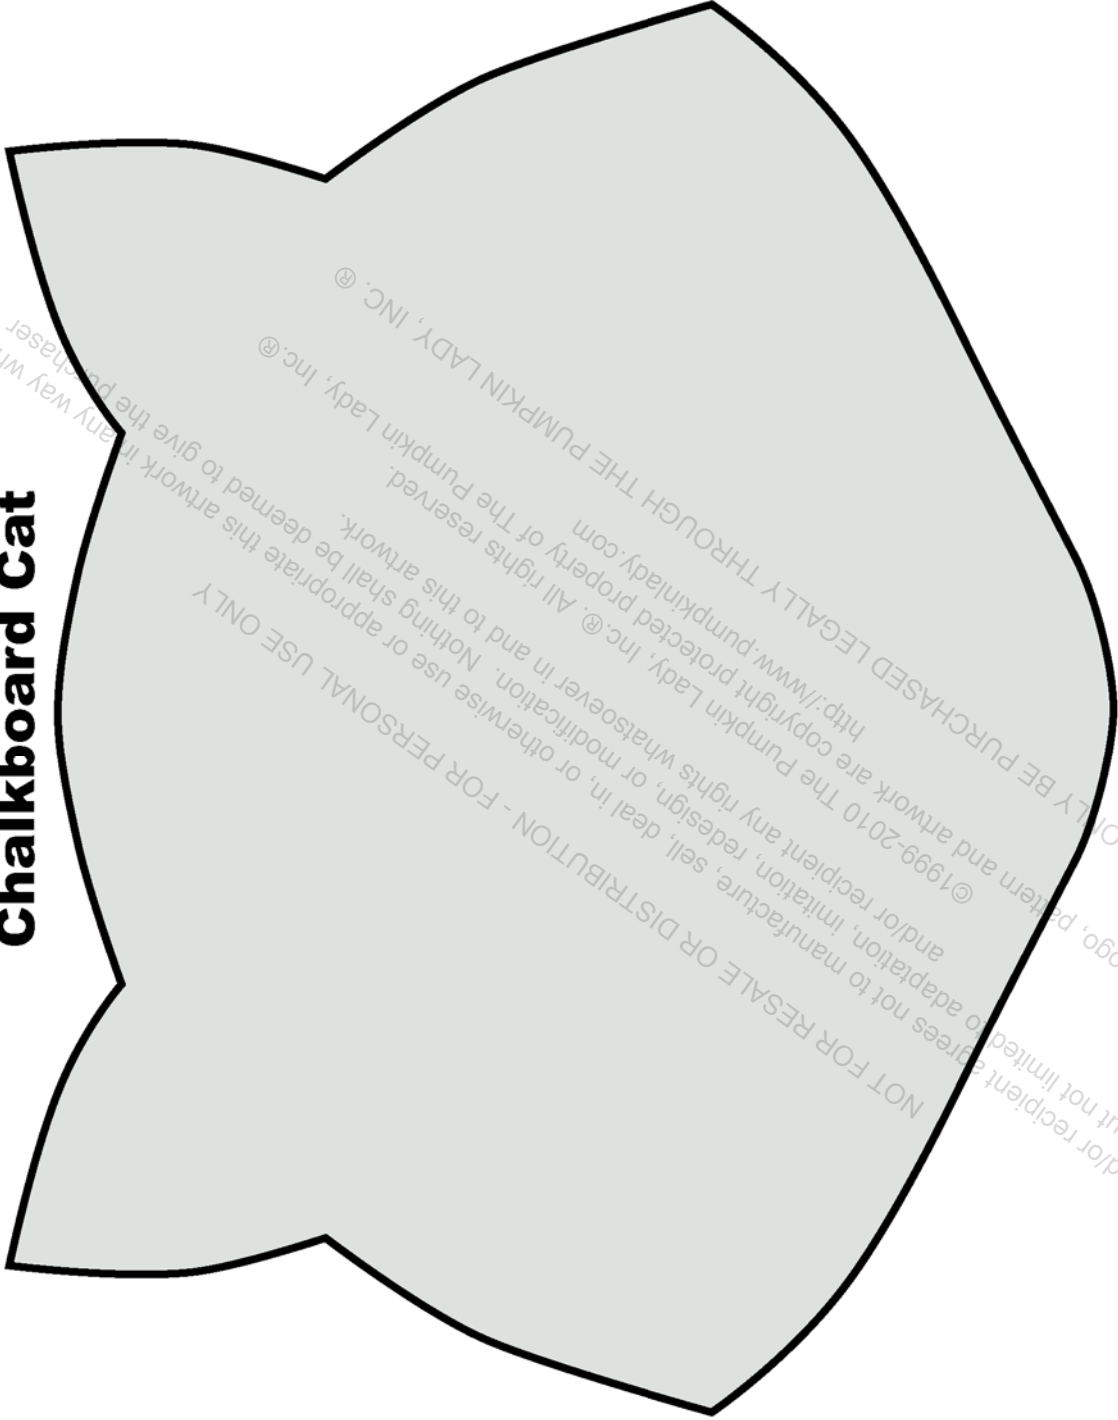

Have a FUN & safe FALL season!
